

LEARNING SERVICES

CREATE CONFIDENCE

EMPOWER YOUR TEAM TO

Your team needs to know how to use the tools available to them, and they need to learn these skills as quickly and completely as possible.

Effective knowledge transfer can make the difference in successfully implementing any change in your organization. That's why Alphanumeric's approach to training is rooted in our commitment to innovative solutions and flexible service delivery. Offering standardized and customizable e-Learning programs to enable your people to train themselves through effective interactive portals, as well as VILT and traditional in-classroom training, we can provide blended learning solutions to ensure the best-fit for your organization. Whether you need a custom-built curriculum for a unique learning initiative, or a proven e-Learning program to reinforce skillsets in management and professional skills, regulatory compliance, or important software, Alphanumeric will deliver the training your team needs to succeed.

“Taking our content and designing a custom course for our workforce. Retention of the material was

MAXIMIZE THEIR SKILLS

A COMPLEMENTARY SUITE OF SERVICES

Hosted Learning Management System (LMS)

- ✓ Manage and deliver e-Learning content in a Software as a Service (SaaS) model that provides all the functions of an on-site LMS at a fraction of the cost.

Custom Content Design and Development

- ✓ Instructional designers, visual designers and programmers collaborate to ensure your goals are met by creating and delivering e-Learning content tailored to your specifications.

Rapid e-Learning

- ✓ Deliver an engaging learning experience, based on standardized curriculums to boost learning efficiency and get your workforce moving faster.

Instructor-Led Training

- ✓ Reap the benefits of depth and flexibility that come from learning in a classroom setting. Augment an e-Learning delivery with traditional training for improved retention.

Virtual Instructor-Led Training (VILT)

- ✓ Competent instructors lead virtual classes remotely, via webinars, podcasts, etc. to enable greater flexibility than classroom training permits. To see a complete listing of current public class offerings, visit: <http://alphanumeric-training.webex.com>

Training Coordination

- ✓ Subject matter experts manage the learning process from design and content development through post-delivery monitoring and feedback.
